## CALL FOR ABSTRACTS

The HKBU Language Centre consists of four interrelated language sections: English for academic purposes, Chinese, Putonghua and Foreign languages (French, German, Spanish, Japanese, and Korean). Our conference is designed to engage educators from all these disciplines, featuring parallel sessions covering all of these language themes.

We invite abstract submissions from teachers across language disciplines, including English for Academic Purposes/English for Specific Purposes (EAP/ESP), Chinese language, foreign language, and Putonghua. All submitted abstracts will be peer-reviewed. Scan the QR code for more information of the conference and the submission.
